# PREFACE

THIS Book is the most complete work which has ever been published in English, and, indeed, probably in any language, giving the various CUSTOMS TARIFFS in force throughout the World.

Every care is taken to ensure the correctness of the information given; but it must of course be borne in mind that it is absolutely impossible that every item in every Tariff can be correctly set out, as not only are new Tariffs being constantly framed, but, further, a week seldom elapses without material alterations being made to existing ones.

The constant expansion of the different Tariffs is abundantly shown by the increase in the size of this Book, the number of pages having steadily risen from 729 in 1905 to 1224 in 1920.

The Book is intended to meet a real and distinct need in the Commercial and Industrial World, not only of this country but also abroad, and, having regard to the fact that it enables any Merchant to tell at a glance the duty, if any, levied in any country on any exported or imported article, it cannot fail to be of the greatest possible value to the Traders of the World.

An Alphabetical Index to Countries will be found on pages v and vi, and at the commencement of each Tariff an Alphabetical List of the chief items in it has been given, showing under which number or category the duty levied upon any particular article is to be found.

## IMPORTATION OF GERMAN, ETC., SILVER ARTICLES IN VIEW OF THE MERCHANDISE MARKS ACT.

(Communication—by the Government of India, Finance and Commerce Department, No. 400-S. R., dated the 19th January, 1904.—*Customs Circular*, No. 111, of 1904.)

This communication lays down the procedure to be adopted by the Customs authorities in dealing with imported articles which contain no silver, but which are marked as "German," "Potosi," "Nevala" or "Art" silver.

The Government of India are of opinion that such goods, when marked as "German silver" or "Nickel silver," may be passed without objection. These trade descriptions are well known to all classes likely to be affected: and they have been in use for a sufficiently long period to render it very improbable that any purchaser will be deceived thereby.

The Government of India are not prepared to extend this ruling, however, to articles not made of silver, which are marked as "Potosi silver," "Nevala silver," "Austral silver," "Art silver," etc. They are of opinion that it would be unsafe to assume that descriptions of this nature would not deceive purchasers in India; and they consider that such goods, if marked in this manner, should be dealt with as bearing a false trade description within the meaning of the Indian Merchandise Mark-Act, 1889 (IV. of 1889).

No objection should be taken to the use of such marks, provided that the word "silver" is omitted.

## DRAWBACKS.

The Governor-General in Council has sanctioned the payment of drawback in the case of all articles re-exported by parcel post, in whatever manner may be desired, provided that adequate proof is produced of the payment of import duty, of the identity of the articles, and of their re-export being effected within two years from the date of importation, or within such extended term not exceeding three years as the Chief Customs Authority, on sufficient cause being shown, determines in any case.

*Articles exported to persons and baggage.*—The provision of Section 50 (a) of the Sea Customs Act, No. 8 of 1878, will, in future, be waived in favour of articles exported with the owners as personal baggage. The section referred to provides that no drawback will be allowed upon goods not included in the export manifest. (*Customs Circular* No. 8 of 1906.)

## RULES FOR EXEMPTION FROM THE PAYMENT OF CUSTOMS DUTY OF RE-IMPORTED COMMERCIAL SAMPLES NOT INTENDED FOR SALE.

[*Customs Circular* No. VII of 1907.]

1.—Samples of goods, not intended for sale, re-imported by commercial travellers into British India shall be passed free of duty, provided that the Collector of Customs at the port of re-importation is satisfied:

- (i) that duty was paid on first import;
- (ii) of the identity of the articles;
- (iii) that no drawback was paid on export;
- (iv) that the ownership in the articles has not changed since its first import; and
- (v) that not more than six months have passed since the articles were exported.

2.—In order to be able to claim the benefit of this concession, commercial travellers must observe the following procedure:

(1) When the samples are first imported into British India, commercial travellers will be required to produce to the Collector of Customs a certificate or letter of identity from their principals or other persons satisfied, the Collector of their eligibility for the concession. An invoice in duplicate, showing each article in detail, should be filed at the Custom House. The original will be retained by the Customs authorities. Each page of the duplicate will be stamped with the Custom House seal, and will be endorsed, over the signature of a Customs officer, with a reference to the Bill of Entry on which the samples are first assessed to duty. It will be returned together with a certified copy of the Bill of Entry to the travellers.

(2) The certified copy of the Bill of Entry must, on each occasion on which the samples are exported from a port in British India, to a foreign port, be produced to the Customs Collector of the port of export, who will endorse, after such examination of the samples as he may think necessary, the copy of the Bill of Entry with a certificate that no drawback had been paid, together with the date of exportation. On re-importation from a foreign port the Bill of Entry must similarly be produced to the Collector of Customs, who will endorse, after such examination of the samples as he may think necessary, the date of re-importation on the Bill of Entry.

3.—When the samples are finally exported under claim of drawback, a certificate of examination shall be recorded on the certified copy of the Bill of Entry by a Customs officer after verification of the necessary particulars in regard to the identity of the articles and payment of duty. The certified copy of the Bill of Entry and the duplicate copy of the invoice shall be forwarded to the port of first importation.

Such a rebate as is provided in the last preceding section shall be allowed *mutatis mutandis* under the circumstances and conditions in the section described in respect of goods which are grown, produced or manufactured in any British Possession in which an equivalent rebate is allowed reciprocally in respect of goods imported into that Possession from the Union.

The particular British Possession in respect of which such a rebate may be allowed under this section shall be from time to time notified by the Governor-General by proclamation in the *Gazette*, together with the date as from which the rebate will take effect.

5. A rebate of customs duty shall be allowed in respect of the following goods:—

(a) Wines and spirits for the use of the Governor-General;

(b) the goods for the use of the members of His Majesty's regular naval or military forces;

(c) soap or other like substances for use in connection with the industry of wool washing.

In the case of goods mentioned in paragraph (b) an allowance per member may be made in lieu of the rebate.

6. The Governor-General may, by proclamation in the *Gazette* declare:—

(a) that when goods which have been imported into the Union are exported therefrom to a country specified in the proclamation a rebate shall be allowed or a refund made of the duty which was levied on the importation;

(b) that when any article manufactured in the Union is exported therefrom, a rebate shall be allowed or a refund made of the duty in respect of materials (whether raw, semi-manufactured or manufactured) used in the manufacture of that article;

(c) that, in respect of goods purchased by the Customs and Harbours Administration from stock, a rebate shall be allowed to that Administration of the duty paid by the importer on the importation of those goods or, in lieu of such rebate, that an annual payment shall be made to that Administration out of the Consolidated Revenue Fund;

(d) that there may be allowed a rebate or refund of the duty which would be payable in respect of articles (not being private wearing apparel or effects, food or drink, or tobacco in any form) for the official or private use of consuls who are subjects of the Governments represented by them and are not engaged in any other business, profession, or occupation in the Union;

(e) that, in respect of *bona fide* samples imported by commercial travellers or by representatives of foreign business undertakings, a refund shall be made of the duty paid upon the export of those samples;

(f) that, in respect of goods not intended for consumption in the Union but imported thereinto by *bona fide* tourists for their own personal use while touring therein, a refund shall be made of the duty paid upon the export of those goods.

7. For the purpose of estimating the amount of customs duty whenever levied on goods *ad valorem* and for the purpose of the declaration and cash which may be required by law or regulation in relation to such goods, the question of the value for purposes of duty of those goods

shall be taken to be the true current value for home consumption in the open market of similar goods in the principal markets of the country from which the goods were imported, and the cost of packing and carriage to the port of shipment and the cost of packing and packages, but not including agency commission when such commission does not exceed five per cent.: Provided that in no case shall the value for purposes of duty, as in this section defined, be less than the cost of the goods to the importer at the port of shipment.

8. Anything to the contrary notwithstanding in this Act contained, the following provisions shall be in force in respect of the charging, levying, collecting and payment of customs duty:—

(1) In the case of goods imported into the Union of a class or kind made or produced in the Union, if the export or actual selling price to an importer in the Union be less than the true current value for home consumption in the usual and ordinary course in the country from which they were exported to the Union at the time of their exportation thereto, there may, in addition to the duties otherwise prescribed, be charged, levied, collected and paid on those goods on importation into the Union a special customs duty (or dumping duty) equal to the difference between the said selling price of the goods for export and the true current value thereof for home consumption as defined in this Act: Provided that the special customs duty (or dumping duty) shall not in any case exceed fifteen per cent. *ad valorem*.

(2) When a bounty is granted in the country of origin on any goods, of a class or kind made or produced in the Union an additional customs duty equal to the amount of such bounty may be charged, levied, and collected upon the importation of those goods into the Union.

(3) The goods in respect of which there may be charged, levied and collected any special (or dumping) customs duty under sub-section (1) or any additional customs duty under sub-section (2) shall be

(a) from time to time determined by the Governor-General and notified by him by proclamation in the *Gazette*, together with the date as from which such date shall not be less than six weeks after the publication of the proclamation.

9. Whenever goods are imported into the Union under such circumstances or conditions as render it difficult to determine the value thereof for purposes of duty because:—

(a) those goods are not sold for use or consumption in the country of origin or production; or

(b) a hiring of those goods or the right of using the same, but not the right of property therein, is sold or given; or

(c) any royalty imposed on those goods is uncertain or is not from other causes a reliable means of estimating the value of the goods; or

(d) those goods are usually or exclusively sold by or to agents or by subscription; or

(e) those goods are sold or imported in or under any other unusual or peculiar manner or condition;

the Commissioner may determine the value of those goods for purposes of duty, and the value so determined shall, unless otherwise provided, and subject always to the right of appeal to the Minister, be the value upon which the duty on those goods shall be computed and levied.

10. Notwithstanding anything to the contrary contained in this Act or any other law, the customs duties determined by law in respect of the importation of goods into the Union shall not be payable in respect of the goods imported into or through the port of settlements of Walvis Bay.

(2) The port of settlement of Walvis Bay shall be deemed to be a foreign port in respect of the importation thereinto or exportation thereto of all goods which are not grown, produced or manufactured in the Union.

11. The Governor-General may enter into an agreement with the Government of any territory in South Africa, being a portion of the British Dominions or under the protection of the Crown, providing:—

(a) that goods grown, produced or manufactured in that territory shall be admitted into that territory free of customs duty, and that goods grown, produced or manufactured in that territory shall be admitted into the Union free of customs duty;

(b) that one party to the agreement shall collect on behalf of the other party the customs duties imposed in respect of goods which, having been imported into its territory, are removed into the territory of the other party.

Every such agreement shall provide that in the event of an excise duty or surtax being imposed on any goods grown, produced or manufactured in or exported from the territory of one of the parties, a corresponding duty or surtax shall be levied on like goods, which, having been grown, produced or manufactured in or imported into the territory of the other party to the agreement, are imported into the Union.

12. The annual licence of duty authorised by law in respect of a warehouse appointed and licensed under section 5 of the Customs Management Act, 1913, or any amendment thereof shall be twenty pounds, and 20 mch

of any other law as prescribes a different amount as licence duty in respect of such a warehouse is hereby repealed.

13. (1) All the provisions of the Customs Management Act, 1913, shall be deemed to be incorporated in this Act and in the interpretation of section *twenty-two* of that Act as read with this Act and the regulations made thereunder, "an agreement for the sale or delivery of an article" shall include an agreement for the hiring of that article and the expressions "seller" and "purchaser" shall correspondingly be construed as including the person by whom and the person to whom the article is hired.

(2) Any expression to which a meaning has been assigned in and for the purposes of the Customs Management Act, 1913, shall, when used in this Act or any regulations made thereunder bear that meaning, unless the context otherwise requires.

14. The Governor-General may make regulations, not inconsistent with this Act or any other law, as to all or any of the following matters, namely—

- (a) the conditions under which goods the duties in respect whereof are suspended under the authority of this Act may be imported into, or removed from one place to another within the Union;
- (b) the conditions under which rebates which may be allowed or refunds which may be made by or under the authority of this Act shall be allowed;
- (c) the conditions under which removal from or into the Union may take place of goods which are subject to any agreement made under this Act with the Government of any territory;
- (d) the conditions under which the transit through the Union may take place of goods the importation of which into the Union is prohibited or restricted under any law,

and generally for the better carrying out of the objects and purposes of this Act.

The regulations may provide penalties for the contravention thereof or failure to comply therewith not exceeding the penalties mentioned in section *one hundred and sixteen* of the Customs Management Act, 1913, incorporated in this Act.

15. The laws specified in the Second Schedule to this Act are hereby repealed to the extent set out in the fourth column thereof.

  - (c) from time to time, in consideration of benefits satisfactory to the Governor in Council, extend the benefit of the Intermediate Tariff, in whole or in part, to any British or foreign country the produce or manufactures of which have previously been subject to the rates of customs duties set forth in the General Tariff, and from and after the publication of such order in the *Canada Gazette*, the rates of duty set forth in the said order, shall apply to goods the produce or manufacture of such British or foreign country, when imported direct from such foreign country or from a British country, subject to the provisions of this Act; and
  - (d) withdraw the benefit of the Intermediate Tariff from any country to which it has been extended, and from and after the publication of such order in the *Canada Gazette*, the rates of customs duties set forth in the General Tariff shall apply to goods the produce or manufacture of such country, subject to the provisions of this Act.
5. On and after a date to be named by the Governor in Council, in a proclamation published in the *Canada Gazette*, the British Preferential Tariff shall apply only to goods brought into Canada by ship direct to a Canadian seaport.
6. In the case of articles exported to Canada of a class or kind made or produced in Canada, if the export or actual selling price to an importer in Canada is less than the fair market value of the same article when sold for home consumption in the usual and ordinary course in the country whence exported to Canada at the time of its exportation to Canada, there shall, in addition to the duties then established, be levied, collected and paid on such article, on its importation into Canada, a special duty (or dumping duty) equal to the difference between the said selling price of the article for export and the said fair market value thereof for home consumption; and such special duty (or dumping duty) shall be levied, collected and paid on such article, although it is not otherwise dutiable.
- Provided that the said special duty shall not exceed fifteen per cent. ad valorem in any case.

- Provided further that excise duties shall be disregarded in estimating the market value of goods for the purpose of special duty when the goods are entitled to entry under the British Preferential Tariff.
- (2) "Export price" or "selling price" in this section shall be held to mean and include the exporter's price for the goods, exclusive of all charges thereon after their shipment from the place whence exported directly to Canada.
  - (3) If at any time it appears to the satisfaction of the Governor in Council, on a report from the Minister of Customs, that the payment of the special duty by this section provided for is being evaded by the shipment of goods on consignment without sale prior to such shipment, the Governor in Council may in any case or class of case authorize such action as is deemed necessary to collect on such goods or any of them the same special duty as if the goods had been sold to an importer in Canada prior to their shipment to Canada.
  - (4) If the full amount of any special duty of customs is not paid on goods imported, the customs entry thereof shall be amended accordingly, deficiency paid upon the demand of the collector of customs.

(3) The Minister of Customs may make such regulations as are deemed necessary for carrying out the provisions of this section and for the enforcement thereof.

(4) Such regulations may provide for the temporary exemption from special duty of any article or class of articles, when it is established to the satisfaction of the Minister of Customs that such articles are not made or sold in Canada in substantial quantities and offered for sale to all purchasers on equal terms under like conditions, having regard to the custom and usage of trade.

(5) Such regulations may also provide for the exemption from special duty of any article when the difference between the fair market value and the selling price thereof to the importer as aforesaid amounts only to a small percentage of its fair market value.

(6) That goods the product or manufacture of any foreign country which transit imports from Canada less favourably than those from other countries may be made subject by Order in Council in the case of goods already dutiable to a surtax not exceeding 20% *ad val.*; and in the case of goods not dutiable to a rate of duty not exceeding 20% *ad val.*

(7) That goods the product or manufacture of any foreign country imported into Canada in vessels registered in such foreign country, may if such foreign countries impose higher duties of customs upon goods imported into such country in vessels registered in Canada than upon the goods when imported in vessels of such country, be made subject by Order in Council in the case of goods already dutiable to a surtax not exceeding 20% *ad val.*; and in the case of goods not dutiable to a rate of duty not exceeding 20% *ad val.*

8. Notwithstanding anything in this Act, fish and other products of the fisheries of Newfoundland may be imported into Canada free of customs duty until otherwise determined by the Governor in Council, by order published in the *Canada Gazette*.

9. Fish caught by fishermen in Canadian fishing vessels, and the products thereof carried from the fisheries in such vessels, shall be admitted into Canada free of duty under regulations by the Minister of Customs.

10. On the materials set forth in Schedule B to this Act, when used for consumption in Canada for the purpose specified in that schedule, there shall be paid, and only for that purpose, no duty, and the several rates of drawback of customs duties set opposite to each item respectively in that schedule, under regulations by the Governor in Council.

11. The importation into Canada of any goods enumerated, described or referred to in Schedule C to this Act is prohibited; and any such goods imported shall thereby become forfeited to the Crown, and shall be destroyed or otherwise dealt with as the Minister of Customs directs; and any person importing any such prohibited goods, or causing or permitting them to be imported, shall for each offence incur a penalty not exceeding two hundred dollars.

12. Whenever, from or as a result of a judgment of the Supreme Court or Exchequer Court of Canada, or of any superior court, or circuit, district or city court in Canada, it appears to the satisfaction of the Governor in Council that with regard to any article of commerce there exists any conspiracy, combination, agreement or arrangement of any kind among manufacturers of such articles or dealers therein to unduly promote the advantage of the manufacturers or dealers at the expense of the consumer, the Governor in Council may admit the article free of duty, or so reduce the duty thereon as to give the public the benefit of reasonable competition in the article, if it appears to the Governor in Council that such disadvantage to the consumer is facilitated by the duties of customs imposed on a like article.

(2) Whenever the Governor in Council deems it to be in the public interest to inquire into any conspiracy, combination, agreement or arrangement alleged to exist among manufacturers or dealers in any article of commerce to unduly promote the advantage of the manufacturers or dealers in such article at the expense of the consumer, the Governor in Council may commission or empower any judge of the Supreme Court, or of the Exchequer Court of Canada, or of any superior court, or any court in Canada, to hold an inquiry in which a summary may be made and report to the Governor in Council whether such conspiracy, combination, agreement or arrangement exists.

(3) The judge may compel the attendance of witnesses and examine them under oath and require the production of books and papers, and shall have such other necessary powers as are conferred upon him by the Governor in Council for the purpose of such inquiry.

(4) If the judge reports that such conspiracy, combination, agreement or arrangement exists in respect of such article, the Governor in Council may admit the article free of duty, or so reduce the duty thereon as to give the public the benefit of reasonable competition in the article, if it appears to the Governor in Council that such disadvantage to the consumer is facilitated by the duties of customs imposed on a like article.

13. Nothing in this Act shall affect *The French Treaty Act, 1894*, or chapter 10 of the Statutes of 1896, intituled *An Act respecting Commercial Treaties affecting Canada*.

14. *The Customs Tariff*, chapter 49 of the Revised Statutes, 1906, is repealed.

15. All orders in Council placing articles on the free list or redrawing rates of duties, and all other orders in Council and departmental regulations inconsistent with any of the provisions of this Act, are repealed.

16. This Act shall be deemed to have come into operation on the thirtieth day of November, one thousand nine hundred and six, and to apply and have applied to all goods imported or taken out of warehouse for consumption on or after that day, and to have applied to goods previously imported for which no duty for consumption was made before that day, except as otherwise provided in this Act. Provided that goods which duty was paid on or taken out of warehouse for consumption on or around nine hundred and seven, and prior to the thirtieth day of March, one thousand nine hundred and six, and in accordance with the rate of duty set forth as payable on such goods in the resolutions respecting the duties of November, one thousand nine hundred and six, shall not be subject to further payment of duty by reason of such rate of duty having been increased by any resolution or amendment introduced subsequently to that in accordance with which such duty was paid.

THE DUMPING CLAUSES.

For Provisions of the Customs Tariff, 1907, in regard to Special duty or Dumping duty, see Article 6 of the Act preceding the tariff.

Regulations by Order in Council and by the Department of Customs respecting Invoices, Entries and Special Duty:—

1. Invoices in duplicate properly certified shall be delivered at the Custom House with the bill of entry for all imported goods.
2. Every such invoice shall contain a sufficient and correct description of the goods, and in respect of goods sold by the exporter shall show in one column the actual price at which the articles have been sold to the importer, and in a separate column the fair market value of each article as sold for home consumption in the country of export.
3. The "price" and "value" of goods in every case aforesaid are to be stated as in condition packed ready for shipment at the time when, and at the place where, the goods have been exported directly to Canada.
4. When the value of goods for duty purposes is determined by the Minister of Customs under the provisions of the Customs Act, by reason of the goods being exported or imported under unusual conditions, the value so determined shall be held to be the fair market value thereof.
5. In making Customs Entries the "Special duty" may be shown by itself in the "net duty" column of the entry on the line below the article subject to special duty or on the line below continuous numbers of articles subject to special duty.
6. Goods of a class or kind made in Canada are subject to special duty, when sold for exportation to Canada at a less price than for home consumption in the country of export, whatever such goods be otherwise free of duty or subject to specific or *ad valorem* duties—with the exceptions stated in Clause 6 of the Tariff as herebefore quoted.
7. By Regulations in force from May 1st, 1907.—Under the Special Duty provisions of the Customs Tariff, the special duty is not to apply in the following cases, viz.:—

- (a) In respect of iron and steel, rolled, drawn or polished when the difference between the fair market value and the selling price of such iron and steel to the importer in Canada does not exceed 5% of their fair market value;
- (b) In respect of iron and steel tubing, threaded and coupled or not, 4 ins. or less in diameter, when the difference between the fair market value and the selling price of such tubing to the importer in Canada does not exceed 5% of its fair market value;
- (c) Provided that special duty or dumping duty under the Customs Tariff, 1907, shall without exemption allowance apply to iron and steel tubing, threaded and coupled or not, over 4 ins. in diameter, such tubing being of a class or kind made in Canada.
- (d) In respect of other goods when the difference between the fair market value and the selling price of the goods to the importer in Canada does not exceed 7 1/2% of their fair market value.

Provided that the whole difference shall be taken into account for special duty purposes when exceeding 7 1/2% in the case of such iron and steel, including iron and steel tubing 4 ins. or less in diameter, and when exceeding 7 1/2% in other cases.

8. *Bona fide Samples admitted without Special Duty.*—Articles of merchandise for use *bona fide* as samples for sale of similar goods are to be admitted without special duty (subject, however, to ordinary duties as heretofore).

9. *Advance in Market Value after purchase of goods by importer not subject to Special Duty.*—The amount of any advance in the market value of goods between the time of their purchase by the importer and the time of their exportation to Canada shall not be subject to special duty after the 9th November, 1904, provided the goods have been exported in the usual course and the actual date of purchase established to the satisfaction of the collector by contracts or other sufficient documents produced for his inspection and attested to.

Provided, however, in respect of goods subject to an *ad valorem* duty, that the *ordinary duty* shall be collected (as heretofore) on the fair market value of the goods as at the time of their direct exportation to Canada under the provisions of Section 58 of the Customs Act.

10. *Rule to be observed (for Special Duty purposes only) in comparison "Fair Market Value" with "Export Price."*—In computing the difference for Special Duty purposes between the "Fair Market Value" in the country of export and the "Selling Price to the importer in Canada," the fair market value of goods is to be estimated on the usual credit basis, except when the article is universally sold in the country of export for cash, in which case the fair market value is to be estimated on a cash basis. Provided that a *bona fide* discount for cash not exceeding 2 1/2% when allowed and deducted by the exporter on his invoice may be allowed in estimating the fair market value of goods for duty purposes.

Examples:—

(1) Hats sold for Home Consumption at \$100 on Credit, subject to 8% Cash discount, would be liable to Special duty if sold to a purchaser in Canada on a usual credit basis at \$92, but would not be liable to special duty if sold to a purchaser in Canada for \$92 cash.

(2) Machinery sold for Home Consumption at \$100 on Credit, subject to 2% Cash discount, would not be liable to Special duty if sold to a purchaser in Canada for \$91 Cash, as the 2% difference does not exceed 2 1/2% after raising the Cash price (\$51) by 2% to its Credit equivalent.

SCHEDULE C. continued.

The cental of 100 lbs. is also used.

By a proclamation issued January 14th, 1920, the importation of goods manufactured or produced in or bought directly or indirectly from Germany, Austria-Hungary, Turkey or Bulgaria is prohibited except with the consent of the Minister of Trade and Customs.

ACTS RELATING TO DUTIES OF CUSTOMS.

As enacted by the King's Most Excellent Majesty, the Senate, and the House of Representatives of the Commonwealth of Australia, as follows:—

This Act may be cited as the "Customs Tariff, 1914," and the Time of the imposition of the Duties of Customs imposed by this Act is the third day of December, 1914, at four o'clock in the afternoon, reckoned according to the standard time in the State of Victoria, and this Act shall be deemed to have come into operation at that time. The rates of duty in the column headed "Tariff on Goods the Produce or Manufacture of the United Kingdom," shall apply only to Goods the Produce or Manufacture of the United Kingdom, which are shipped in the United Kingdom to Australia and are transhipped, or if transhipped then only if it is proved to the satisfaction of the collector that the goods have not, since they were shipped in the United Kingdom, been subjected to any process of manufacture. The rates of duty set out in the column headed "General Tariff" shall, subject to this Act, apply to all other goods.

All imitations to be dutiable at the rate chargeable on the goods they imitate, unless such rate is less than the rate which would otherwise be chargeable on the imitations.

"Proof" or "Proof Spirit" means spirit of a strength equal to that of pure ethyl alcohol compounded with distilled water so that the resultant mixture at a temperature of 60° Fahrenheit has a specific gravity of 0.9195 as compared with that of distilled water at the same temperature.

The term "Iron" includes Steel.

"Wool" or "Woolen" includes all manufactures of wool or hair or combinations thereof.

"N.E.T." means "not elsewhere included."

"Departmental By-law" means by-law made by the Minister, and published in the Gazette.

Any article, not otherwise dutiable, composed of a combination of other articles, some of which are dutiable when imported separately, and some of which are free of duty when imported separately, shall be dealt with as follows:—

- When the value of the dutiable portion exceeds the value of the free portion, duty shall be charged upon the whole article at the same rate as would be chargeable on that portion of the dutiable portion which, if imported separately, would be liable to the highest rate of duty.

- When the value of the free portion exceeds the value of the dutiable portion of such article, the whole article shall be admitted free of duty.

Whenever any goods are composed of two or more separate parts, any part though imported by itself shall, if so directed by the Minister, be dealt with under the item applicable to the complete goods.

"Non-spirituous" means free from spirit or containing not more than 2% of proof spirit.

"Spiritous" means containing more than 2% of proof spirit.

The following statement shows the requirements of the Australian Customs, in connection with the question of the value for duty of goods liable to ad valorem rates:—

Section 151 (4) of the Customs Act 1901 provides that "when any duty is imposed according to value, the value shall be taken to be the fair market value of the goods in the principal markets of the country whence the same were exported in the usual course of trade, at the date of the invoice relating to such goods and a further addition of 10% on such market value."

In assessing the free on board value of goods subject to ad valorem duty in terms of the above quoted section of the Customs Act 1901, the following charges are included, viz:—

CHARGES INCLUDED IN VALUE FOR DUTY.

- When the goods are shipped from the country of origin by sea, the value shall include the whole inland carriage.
- When the goods are bought in one country and shipped from a contiguous country (e.g., bought in Austria, shipped from Germany)—inland freight to the frontier of the country in which the goods are purchased.
- When goods are shipped from one port to another port in the same country but are not actually consigned to Australia from the first port, and other charges (including lighterage) incurred in conveying the goods to, and placing them on board, the exporting vessel.
- Canal Dues (i.e., when canal dues form portion of inland freight charge to the port of shipment).
- Cost of labour and materials (except outside packages) used in packing, including dock, 1 kapok, straw, and other inside packing.
- Insurance to port of shipment.
- Inland Revenue duty, only when the goods bear Inland Revenue duty stamps affixed to them in the country of export.

Roading.

1 When Block, kapok, straw, or horse-hair packing is separately invoiced and has a commercial value of its own after unpacking in Australia, such value is not included in the value for duty, and the materials mentioned are dealt with under their appropriate tariff heading.

And the following are included, viz.:-

### CHARGES EXCLUDED FROM VALUE FOR DUTY.

Outside packages (including zinc linings and tarred paper) in which goods are ordinarily imported; agents' charges; bank exchange; paying or inland commission, being a charge made to the importer by the buying or inland agent for services rendered, and not an allowance made by the manufacturer to the agent; brokerage; dock dues; export duty; inspection fees; insurance—over-sea; interest; postage and petites; sea freight—over-sea; stamp duty on bills of lading.

In all cases import duty is chargeable in Australia on not less than the net price at which similar quantities of the goods could be bought by any cash purchaser for home consumption at the date of the invoice relating to such goods, plus the charges enumerated above as included in the value for duty and plus the statutory 10% referred to above. Any special discounts allowed, or reduced prices charged, to branch houses or to agents purely by reason of agency existing, and any discounts or reductions in price allowed for export and not for home consumption, are therefore not recognized by the Department in determining the value for duty.

# MONSIEUR, WEEDS AND MEASURES.—Same as Great Britain.

By an order in Council dated 17th November, 1919, the importation of any goods from Germany, Austria-Hungary, Bulgaria, Turkey is prohibited, save with the consent of the Minister of Customs.

The letters "n.o.e." in the text mean "not otherwise enumerated."

## TARIFF.

This Act shall be deemed to have come into operation on the 17th July, 1907, and to have been in operation since the commencement of that day. The goods mentioned in Schedule B, except as otherwise provided for in that Schedule, shall be exempt from duties of Customs if imported into New Zealand after the coming into operation of this Act.

Full duty will be levied on all articles as if they were not the produce or manufacture of any part of the British Dominions, unless there is produced to the Collector an invoice of the goods having written or printed thereon a certificate, signed by the sender or consignee, in such form as may be prescribed by the Minister of Customs, stating that the articles are bona fide the produce or manufacture of some part of the British Dominions named in the certificate. No such invoice shall relate to any goods other than those to which the certificate refers.

On the importation of any articles the importer or his agent, in addition to the particulars required to be given on the entry of dutiable goods, shall state, to the best of his knowledge, information, and belief, the country of which such articles are the produce or manufacture, and shall satisfy the Collector, by declaration or otherwise, of the truth of such statement. If the Collector has reason to believe that any such articles are not the produce or manufacture of the country mentioned in such invoice, certificate, or statement, he may detain them for examination; and if after the inquiry he is satisfied that such invoice, certificate, or statement is false, the articles will be forfeited and the importer or agent of an importer, who makes any such statement, knowing the same to be false is liable to a penalty not exceeding one hundred pounds, or to a fine of treble the value of the goods specified in such invoice.

In the case of parcels sent by post or through a forwarding agency, the Collector may dispense with the certificate required by this section, if evidence satisfactory to him is produced that the goods are the produce or manufacture of the British Dominions.

The articles in which spirit is a necessary ingredient, permitted to be manufactured in any warehouse or place of security approved and appointed under Section 29 of the Customs Laws Consolidation Act, 1906 (hereinafter called manufacturing warehouse), shall be limited to the following articles when made under such conditions, in such quantities, and according to such formula as may from time to time be approved by the Minister of Customs, that is to say: Perfumed spirit, spirituous preparations for the toilet, culinary or flavouring essences, and medicinal preparations (excepting medicated wine or wine mixed with food).

Before delivery from any manufacturing warehouse there shall be paid to and for the use of His Majesty's duty on such articles in accordance with the following scale, that is to say:—

On perfumed spirit ..... 20s. per liquid gallon.

On toilet preparations which are subject to

18s. the liquid gallon on importation ..... 14s. ....

On toilet preparations which are subject to

25% duty on importation ..... 6s. ....

On culinary and flavouring essences ..... 14s. ....

On medicinal preparations (excepting medicated

wine or wine mixed with food) containing

more than 60% of proof spirit ..... 9d. per lb.

Medicinal preparations (excepting medicated

wine or wine mixed with food) containing

50% of proof spirit or less ..... Free

The rates of duty on beer brewed in New Zealand specified in the Finance Act, 1915, shall be abolished, and the following duties shall be payable on all such beer of which the worts are pitched for fermentation on and after September 14, 1917, viz.:—

(a) Where the specific gravity of the worts used in the production of

the beer does not exceed 1.047, at the rate of 4s. 0d. per gallon

(b) Where the specific gravity of the worts exceeds 1.047, the duty per

gallon shall be at the rate aforesaid plus 3d. for every point of

specific gravity above 1.047, and with a maximum of 6d.

per gallon.

The rates of duty on tobacco manufactured in New Zealand, fixed by the Tobacco Act, 1908, shall be abolished, and the following duties shall be payable if the articles specified are entered for home consumption after September 14, 1917, viz.:—

On cigars and snuff ..... per lb. 4s. 0d.

On cigarettes, if manufactured by machinery ..... 5s. 0d.

    " if made by hand ..... 4s. 0d.

The Minister of Customs may prohibit the manufacture of any article included under the foregoing headings, if in his judgment such manufacture is detrimental to the revenue derived from the duty on spirits.

An Order-in-Council, dated 17th November 1919, provides that the New Zealand Tariff Act of 1907 shall, in accordance with the provisions of Sec. 11 of that Act, be brought into force for the Cook and other Islands Government Act (as specified in the schedule to the Cook and other Islands Government Act of 1901) on January 1st, 1920.

Any article imported which bears a proprietary name, or which has a composition which is not clearly disclosed on the label of the package, and analysis is, in the opinion of the Collector, necessary for the purpose of ascertaining the duty payable, the fee for such analysis shall be paid by the importer.

## AD VALOREM DUTIES.

1 When any duty is imposed on goods according to the value thereof such value shall be taken to be the fair market value of such goods when sold for cash in the ordinary course of business for home consumption in the principal markets of the country from which the goods are exported at the time when they were so exported, with 10% added to such fair market value.

2 No deduction of any kind shall be allowed from the fair market value of such goods because of any spot or sample discount, or because of any special arrangement concerning the export of such goods, or the exclusive right to the sale thereof, or for any territorial limits, or because of any royalty payable upon patent rights but not payable when goods are so exported, or on account of any other consideration by which a special reduction in price has been, or might be, obtained.

3 If it is proved to the satisfaction of the Collector that any import duty or excise duty has been actually paid upon the goods in the country from which they were exported, or would have been payable upon the goods in that country if they had been there for home consumption instead of being exported therefrom, the amount of that duty shall be deducted from the fair market value of the goods as determined in accordance with the foregoing provisions.

NOTE.—In respect of clause 3 the expression "goods" therein means and includes only such goods as are exported to New Zealand in the same condition as regards manufacture as when first imported into the country for customs or excise duty in the country from which so exported. It therefore follows that in cases where goods have been manufactured in any country from imported dutiable ingredients or component parts the fair market value required to be declared by exporters under New Zealand Customs must not be reduced by reason of any drawback or rebate of duty on such ingredients or component parts having been obtained from the Customs on the exportation of such finished goods or articles. Any goods or articles which have been first imported into the country of exportation in a finished state and thereafter exported in same condition would receive the benefit of clause 3, as would also patent medicines in respect of any Import Revenue duty payable when sold for home consumption. Clause 3 would apply in these cases whether the goods had been actually paid or not; or whether the goods were shipped ex customs warehouse under bond; or whether patent medicines were exported "stamped" or "unstamped."

## ORDER-IN-COUNCIL OF JUNE 5, 1912.

## REGULATIONS REGARDING PREFERENTIAL TARIFF.

1 The classes of goods which shall be deemed to be the produce or manufacture of the British Dominions for the purposes of the said Act shall be the following:—

- Goods wholly the produce of the British Dominions.
- Goods wholly manufactured within the British Dominions from materials produced in such Dominions.
- Goods wholly manufactured within the British Dominions in which all manufacturing processes are performed in the British Dominions from unmanufactured raw material of foreign origin.
- Goods partially produced or partially manufactured in the British Dominions, provided that the final process or processes of manufacture have been performed in such Dominions, and also that the expenditure in material produced in such Dominions and [or] labour performed within such Dominions (calculated subject to the qualifications hereunder) in such goods shall not be less than one-fourth of the factory or works cost of such article in its finished state.

Provided that the provisions of this clause as applied to oils not otherwise enumerated, including mineral lubricating oils in vessels capable of containing one gallon or more, shall be interpreted subject as nearly as possible to the conditions existing during the month of July, 1914. The words "computed on the basis of cost as it obtained in July, 1914," should be added to form of certificate in the case of shipments of the above-mentioned oils.

2 In the calculation of such proportion of produce or labour of the British Dominions none of the following items shall be included or considered: Manufacturer's profit, or the profit or remuneration of any trader, agent, broker, or other person dealing in the article in its manufactured finished condition; cost of outside packages or any cost of packing the goods therein; any cost of conveying, insuring, or shipping the goods subsequent to their manufacture.

3 Goods landed in transit. Goods which after shipment from any part of the British Dominions have entered into the commerce of or been subject to any process of manufacture in any foreign country shall not be deemed to be the produce or manufacture of the British Dominions.

4 In every case where, pursuant to Section 6 of the said Act, the full duty under the said Act is payable on any goods owing to the non-production to the Collector of such certificate as the prescribed certificate written or printed thereon, and at the time of importation the importer alleges, and the Collector has reason to believe, that such goods are *bona fide* the produce or manufacture of some part of the British Dominions, and that such non-production is due to accident, the following provisions shall apply:—

(a) Any amount of duty so payable in excess of the duty payable upon the like produce or manufacture of some part of the British Dominions may be held by the Collector at the port of importation on deposit, pending the production of an invoice with the prescribed certificate written or printed thereon.

(b) Such deposit shall be returned to the importer if the invoice, with certificate as aforesaid, is produced within six months from the date of payment of the deposit, but otherwise the same shall be applied as duty payable under the said Act, unless other action is specially directed by the Minister of Customs.

ORDINANCE NO. 8 OF 1913.

## AN ORDINANCE TO FIX A TARIFF OF DUTIES ON GOODS IMPORTED INTO THIS COLONY. (27TH MARCH, 1914.)

This Ordinance gives effect to the Reciprocal Agreement between Canada and certain West Indian Colonies and accords preferential treatment to various articles—the growth, produce or manufacture of the United Kingdom, Canada or Newfoundland—under certain prescribed conditions, on importation into the Colony.

The Ordinance further provides, *inter alia*, that—

(a) The rates of Customs duties set forth in column 1 "British Preferential Tariff" of the First and Second Schedules shall apply to goods, the produce or manufacture of the United Kingdom, Canada, Newfoundland and all British Possessions which are parties to the Canada-West Indies Convention or which may become parties thereto, when imported direct from the United Kingdom, Canada, Newfoundland, and any such British Possessions as aforesaid.

(b) The rates of Customs duties set forth in column 2 "General Tariff" shall apply to goods not entitled to admission under the British Preferential Tariff.

Provided that gold bullion, balata, rubber and other substances of a like nature, including gold bullion, balata, rubber and other substances of a like nature in transit imported or brought from Venezuela, shall be subject to an import duty equivalent to the amount of any royalty for the time being imposed by the Crown Lands Regulations and the Mining Regulations, 1905, upon gold bullion, balata, rubber and other substances of a like nature being Colony produce.

The goods, wares and merchandise enumerated in the Third Schedule, which shall be imported into the Colony, shall be exempt from the payment of duty.

Regulations are also prescribed, as heretofore, regarding the mode of ascertaining *ad valorem* duties, assessment of values in foreign coinage, articles imported in bags, &c., composite goods, classification of liquors, warehousing of explosives, drawbacks, refunds, and exemption from duty of goods imported for temporary use only.

The amended Regulations, which may be approved by the Governor and Court of Policy on the 15th August, 1913, prescribe that all goods entitled to preference shall be accompanied by a certificate of origin in one of the forms prescribed.

Certificates of origin for goods consigned direct from the country of origin or manufacture need only be verified by the signature of the exporter or his duly authorised representative. Certificates of origin for goods not consigned direct, in order to be valid, must be attested to in British countries before a Collector, or other principal Officer of Customs, Notary Public, or other official authorised to administer oaths, and to other countries before a British Consul; and such attested certificates must bear the autograph signature of the authority issuing the same, together with the seal of office, if any.

No certificate will be valid after the expiry of six months from the date of issue.

## BRITISH WEST INDIA ISLANDS.—JAMAICA.

## MONEY, WEIGHTS AND MEASURES.—Same as Great Britain.

A Law to consolidate and amend the laws relating to Duties on Imports.  
(Law 21 of 22nd May, 1911.)

Be it enacted by the Governor and Legislative Council of Jamaica, as follows:—

- 1 This Law may be cited as "The Tariff Law, 1911."
- 2 On and after the coming into operation of this Law, there shall be raised, levied, collected and paid into His Majesty, his heirs and successors, for the use of the Government of this Island, upon the importation of goods into this Island and enumerated in the first Schedule to this Law, the several duties therein set forth. And the articles enumerated in the second Schedule to this Law shall be admitted into the Island free of duty.
- 3 And all goods not enumerated in this Law as subject to any other rate of duty, nor declared free of duty by or under the provisions of this Law or any other Law, and not being goods the importation of which is by any Law prohibited, shall be subject to a duty of £10 on every £100 value, and after these rates for any greater or less quantity of such goods respectively.

(1) 3 Anything in the next preceding section to the contrary notwithstanding the articles enumerated in the third Schedule to this Law, when imported into the Island for temporary use either by an owner or by an exhibitor but not for sale, provided that the articles enumerated in Items 2 and 3 had been in use abroad, shall be admitted on the security of a deposit of 30% of the duties leviable on similar articles if imported for Island use, such deposit to be refunded on the exportation of such articles to the foreign country or on the expiration of two months of importation. Should the articles not be exported within two months of importation the Collector shall withhold a sum equal to 5% of the duty payable at time of importation for each month or part of a month during which such articles are kept in the Island beyond the specified period of two months up to the limit of eight months. But if not exported within eight months of importation, the Collector shall be entitled to levy a duty on such articles as if they had been finally imported for Island use and shall be entered and the duty thereon paid in the manner prescribed by sections 18 and 49 of Law 18 of 1877, allowance being made for any duties already taken and brought to account from the amount deposited.

Articles deemed to have been finally imported for Island use, if not entered and duty paid thereon, shall if sold or kept in the Island beyond eight months be liable to be seized as "uncustomed" goods under the provisions of Section 156 of Law 18 of 1877 or the person appearing as the Importer may be proceeded against under Section 34 of Law 21 of 1885.

4 The ordinary outside casing or covering of any package, box, cask, or merchandise liable to a rated duty as set forth in the first Schedule, or exempt from duty as set forth in the second Schedule shall be exempt from duty under this Law, except as hereinafter stated; but in respect of goods liable to duty on the value thereof, the value of all outside and inside coverings or receptacles containing such goods, together with the value of labels, wrappers, or other articles, shall be deemed to be a portion of the value of such goods for duty, and shall be included in such value. Provided, that all packages or coverings containing free or rated goods apparently designed for use other than in the importation of the goods they contain, shall be subject to the same rate of duty as would thereby be levied if imported empty, or separate from their contents.

5 To the case of spirits subject to duty according to their strength of proof, such strength shall be ascertained by means of Sykes' (or Sikes') hydrometer; and in case such strength cannot be correctly ascertained by the direct use of the hydrometer, it shall be ascertained by the distillation of a sample, and the subsequent test in like manner of the stillate.

6 Whenever goods liable to duty on importation according to the value thereof are imported, the invoice of such goods shall include the value of all packages, receptacles, coverings, wrappers and other articles, in which such goods are packed or contained, together with all charges due or payable in respect of the preparing, packing and putting up of the goods in the condition ready for shipment, and import duty shall be payable on the value of such packages, receptacles, coverings, wrappers and charges.

7 It shall be lawful for the Collector of Customs, or any other proper Officer of Customs, without prejudice to the power to take samples for examination conferred by the Customs Consolidation Law, 1877, or by this Law, to accept as *prima facie* evidence of the character of cement entered for Island consumption a declaration of the manufacturer attested in writing by a reliable cement tester, in the country of manufacture, recognising as such the cement, and that the article so entered is cement, conforming to the standard fixed by the Governor in Privy Council.

8 Any person who, without lawful excuse, the proof of which shall be on the person accused, sends or brings into this Island, or who being in this Island, has in his possession any bill-heading or other paper appearing to be a heading or blank capable of being filled up and used as an invoice, or bearing any signature or other attestation purporting to show or which may be used to show that the invoice which may be made from such bill-heading or blank is correct or authentic, is guilty of a misdemeanour and liable to a penalty not less than £20 and not exceeding £100 or to imprisonment for a term not exceeding twelve months and the goods entered under any invoice made from such bill-heading or blank shall be forfeited.

9 Whenever it shall appear to the Governor in Privy Council, that the interests of the Island will be advanced thereby, he is hereby authorised, with the advice and consent of such Privy Council, to exempt from duty any articles which are imported into the Island, or which may be required for use in connection with local industries, or in the preparation of native products, or otherwise, subject to such regulations and conditions, and for such periods as he may see fit.

10 Wines and malt liquors may be converted into vinegar in any bonded warehouse under such regulations as the Collector General may approve, and thereupon such wines and malt liquors shall be liable to the duty on vinegar only.

11 Upon the re-importation of articles once exported, of the growth, produce, or manufacture of this Island upon which no internal tax has been assessed or paid on exportation, or which have been sold and refunded in full or allowance drawback, there shall be levied, collected and paid in such manner as the Collector General may direct a duty equal to the tax imposed by the internal revenue laws upon such articles, if identified as Island produce and if not so identified then such articles shall be subject to the same rate of duty as under the provisions of this Law. If the duty exported on such articles upon which a drawback has been allowed under section 18 of this Law are returned to this Island, there shall be paid an import duty on such return a sum equal to the drawback allowed.

12 Goods, wares and merchandise upon which any duty under this Law, or any previous Law of this Island shall have been paid, if duly exported within two years of the date of first importation, shall receive a drawback equal to the duty paid on first importation; subject to rules to be made by the Governor in Privy Council for the regulation of such drawbacks.

13 The duty paid on provisions and stores supplied by local merchants or contractors to His Majesty's Navy or Military Authorities, or to the Army, or to the Navy, or to the Royal Ordnance, or to Naval Officers, or Naval Messes, or to other branches of the Public Service and to Public Institutions, shall be refunded under such conditions and regulations as may be prescribed by the Governor in Privy Council.

Provided that such drawback, or refund shall be limited to such articles as would have been entitled to be admitted free of duty, had they been in the same instance consigned to the purchaser.

14 There shall be paid a drawback, equal to the duty paid on their importation on shipbuilding materials, or accessories of any kind for shipbuilding which shall have been imported into this Island and used in the

(1) See Customs Consolidation Law, 1877, Former Amendment Law, 1912, hereafter.

construction or repairs of foreign-going vessels, of any kind, on presentation to the Chief Officer of Customs at the port of importation of a certificate to the effect that such materials and accessories have been used as aforesaid, under the hand of the builder or repairer of such vessel or boat, who used the same, together with a declaration from such builder or repairer, that he believes such shipbuilding materials and accessories to have been imported into the island.

Paints and oils used in painting any foreign-going ship while temporarily in port shall be included in the term accessories.

15 Drawback of duties shall not be payable on goods which have become unmerchantable, subsequent to importation or which have been in actual and bona fide use.

16 Where imported materials on which duty has been paid are used in the manufacture of articles manufactured or produced in this Island, there shall be allowed on the exportation of such articles a drawback equal in amount to the duty paid on such materials so used: Provided, that when the articles exported are made in part of duty-free materials, the imported materials or the portions of the articles made from such materials, shall so appear in the completed articles, that the quantity or measure thereof may be ascertained.

Provided also that where the actual quantity or measure cannot be ascertained by ordinary methods it shall be lawful for the Governor in Privy Council by regulation made under section 12 of this Law to approve an approximate scale of drawback.

17 On the exportation of bread or biscuit manufactured in this Island of imported flour, there shall be paid a drawback equal to the duty paid on the flour used in making the same, but not to exceed the duty payable on a like quantity of bread or biscuit imported.

The several drawbacks under this Law shall be subject to the regulations and provisions of the several Acts or Laws for the time being in force with reference to such drawbacks.

18 In construing the language employed in Schedule 2 of this Law to describe articles intended to be free of duty the articles named as free must be imported in their primary character in relation to the use under which exemption is given. When the character of such articles has been added to, modified or changed by embellishment or combination with some other article whose primary character is other than that described against the article on the free list the consideration as to whether the composite article is liable to duty shall be determined by the value of the component parts considered under the two schedules of the tariff, viz.: the schedule imposing duty and the schedule granting exemption. If the value of the dutiable portion exceeds the value of the portion coming under a description on the free list then duty shall be charged on the composite article: but if the value of the portion formed by any items appearing on the free list exceeds the value of the portion not exempted then the article considered in its complete character shall be exempt from duty.

20 No goods imported free of import duties under the provisions of any law certificate or concession shall be sold or transferred without the importer notifying the Collector-General, and paying such import duties as would be payable if the purchaser or transferee had, on the day of sale or transfer, imported the goods, and any such goods sold or transferred without such import duties being paid as are hereby declared to be payable, shall be liable to be seized, wherever found, and forfeited, and the person so selling the same shall be deemed guilty of an offence under the provisions of the Customs Code, Chapter 1877 (Law 18 of 1877). The provisions of the last mentioned law, and any laws amending the same, in so far as they relate to goods liable to be seized and forfeited under those laws, or any of them, shall apply to goods liable to be seized and forfeited under this Law.

## BRITISH PREFERENTIAL TREATMENT.

Regulations for the entry of goods under the British Preferential Tariff into Barbados.

The regulations provide that certain articles of merchandise, as designated in Schedule A of the Canadian-West Indian Reciprocity Agreement of the 9th April, 1912, being *bona fide* the growth, produce or manufacture of the United Kingdom, Canada or any other British country, shall be admitted into the Colony at each respective preferential rates of duty as may be specified in any Customs Tariff Act for the time being in force.

Manufactured articles shall only be admitted at the preferential rates of duty upon proof being submitted that a substantial portion of the labour of the United Kingdom, Canada, or any other British country, has entered into the production of such articles to the extent in each article of not less than one-fourth of the value thereof at the time the goods are exported for exportation with the Customs Authorities in the country of produce or manufacture.

All articles entitled to preference under these regulations, imported or brought into Barbados, shall be accompanied by such evidence of origin as hereinafter required, and all such articles imported or brought into Barbados, not accompanied by such evidence, shall be deemed to be articles not entitled to admission at preferential rates of duty.

All articles entitled to preference shall be accompanied by certificates of origin in the form set forth in Schedule A—B.

Certificate of origin for goods consigned direct from the country of origin or manufacture need only be verified by the signature of the exporter or his duly authorised representative.

Certificates of origin for goods not consigned direct in order to be valid must be attested to in British countries before a Collector or other principal Officer of Customs, Notary Public, or other official authorised to administer the oath, and, in one-fourth of the value thereof at the time the goods are sealed, and, if any. No certificate shall be valid after the expiry of six months from the date of its issue.

Where goods entitled to preference reach Barbados before the arrival of the certificates of origin relating to the same, the general rate of duty shall be paid on delivery, but if within 30 days of the importation of the goods

\* Certificates of origin are generally similar to those issued for other West Indian Colonies, which see under British Guiana, page 117.

This Ordinance may be cited as the Customs Tariff Ordinance, 1912.

3.—There shall be raised, levied, collected and paid unto His Majesty, for the use of this Colony, the several duties set forth in the first Schedule to this Ordinance upon all goods enumerated in the said Schedule which shall be imported into this Colony or which may be warehoused at the time of

the coming into force of this Ordinance and thereafter entered for consumption in this Colony.

4.—The goods shall be raised, levied, collected and paid unto His Majesty, for the use of this Colony, *ad valorem* duty of fifteen per centum upon all goods not enumerated in the first Schedule to this Ordinance, and not exempted from payment of duty by this or any other Ordinance, and not prohibited to be imported by this or any other Ordinance, which shall be imported into this Colony or which shall be re-imported at the time of the importation into force of this Ordinance and thereafter entered for consumption in this Colony.

5.—The goods enumerated in the second Schedule to this Ordinance, which shall be imported into this Colony, or which may be warehoused at the time of the coming into force of this Ordinance and thereafter entered for consumption in this Colony, shall be exempted from the payment of duty.

6.—(1) The cost of goods, for the purpose of ascertaining the amount of the *ad valorem* duty payable thereon, shall be calculated, if the goods have been purchased by the importer or consignee thereof, on the price charged for the said goods by the vendor thereof, as verified by the genuine invoice of such goods, and if procured otherwise than by *bona fide* purchase, calculated on the actual market value of such goods at the time of exportation to this Colony in the principal markets of the country whence such goods were imported: Provided that the Treasurer is satisfied, in the case of goods alleged to be purchased, of the fact of purchase, that the entries in the invoice are true, and that the invoice conforms in every particular, and also in the case of such goods or of goods obtained otherwise than by purchase that the price charged for the said goods as represented by the invoice or by the entry appears to be a fair market value for such goods, at the place and at the time that the same were purchased by the importer or consignee thereof.

(2) No discount from the value of any goods shall be allowed unless it is clearly shown to the satisfaction of the Treasurer on the original invoice or unless the same is verified by the signature of the manufacturer, merchant or person from whom the goods set forth in the invoice were purchased, and by whom the discount has been or purports to have been actually allowed.

7.—When any invoice for goods purchased in a foreign country expresses the value of the goods in the coinage of that country, such value shall be assessed by the Treasurer at the constant exchange value (based on the relative values of the precious metals) of such foreign coinage for sterling money, and the importer shall pay the duty when duty is payable at the above rate, on the amount calculated at such value.

8.—If any article liable to specific duty is imported in any bag, box, tin, jar, bottle or any other package intended for retail sale and marked or labelled or commonly sold as containing, or commonly reputed to contain, a specific quantity of the article, the bag, box, tin, jar, bottle or any other package as aforesaid, shall be deemed, as against the importer, to contain such specific quantity. In all cases where the package is not so marked or labelled or commonly sold or reputed, the duty, if payable on weight, may, in the discretion of the Treasurer, be calculated on the gross weight of such package and its contents.

9.—(1) Goods not prohibited to be imported, composed of any article liable to duty as a part or ingredient thereof shall be chargeable with the full duty payable on such article, or if composed of more than one article liable to duty, then with the full duty payable on the article charged with the highest rate of duty.

(2) If any article is enumerated, or can be classed, under two or more names, headings or descriptions in the first schedule to this Ordinance, and subject to different rates of duty, the highest duty provided shall be charged, and collected thereon.

10.—(1) The Treasurer may give permission to any person to import any goods into this Colony without payment of duty thereon, upon being satisfied that such goods are imported for temporary use only.

Such permission shall be subject to the following conditions:—

(a) that such goods shall be taken out of this Colony within three months of the date of such permission, and

(b) that the person to whom such permission is given shall deposit in the hands of the Treasurer the amount of duty payable on such goods.

(2) If such goods are not taken out of this Colony within three months of the date of the said permission, the deposit in the hands of the Treasurer shall be forfeited; but if they are taken out of this Colony as aforesaid the deposit shall be refunded.

11.—(1) All goods on their re-importation into this Colony, whether duty shall have been paid on them on their previous importation or not, shall be liable to the same duty as if then imported for the first time.

(2) The owner of any article which is exported from this Colony after payment of the import duty, if any, chargeable thereon, may re-import the same free of duty.

(a) if he or his agent, before exporting the article, gives notice in writing to the Treasurer of his intention to export the article and to re-import the same subsequently, which notice shall contain a full and accurate description of the article and a statement of its value, and

(b) if no re-importation he satisfies the Treasurer that the article imported is the one previously exported by him.

Provided that if any alterations or repairs are made in or to such article before its re-importation, duty shall be paid, on its re-importation, on the full value of such alterations and repairs.

12.—For the better computation of the duties on any ale, beer, porter, or cider, wines or spirits in bulk, six reputed quart bottles or one gallon of such ale, beer, porter, cider, perry, wines or spirits: Provided that if the importer or the Treasurer so desires the computation of duties shall be arrived at by actually measuring the contents of such number of the bottles as will in the opinion of the Treasurer give an accurate basis of computation.

13.—(1) All duties under this Ordinance shall be paid and received according to the weights and measures established by the Weights and Measures Ordinance, 1911, or any other Ordinance which may now or hereafter be in force declaring the weights and measures to be used in this Colony.

(2) In all cases where such duties are imposed according to any specific quantity or value, the same shall be deemed to apply in the same proportion to any greater or less quantity or value.

14.—A repayment of duty shall be made by the Treasurer of sixpence for every ton of coal which shall be put on board of His Majesty's ships and transports, or ships under contract with the Imperial Government or any British Colonial Government for the conveyance of mails to or from this Colony, on the production of a certificate from the officer in command or

chief engineer of such ships setting forth the quantity of coal put on board such ships.

15.—It shall be lawful for the Governor in Council at any time to exempt any article from the payment of duty if he is satisfied, upon a declaration by the importer, that the article is imported for the purpose of starting, developing, or improving any industry intended to be established, or being carried on, in this Colony.

16.—(1) The following goods are absolutely prohibited to be imported into this Colony, that is to say, indecent or obscene prints, paintings, books, carols, lithographic or other engravings, or other indecent or obscene articles.

(2) If any such goods are imported, they shall be forfeited and may be destroyed or otherwise disposed of as the Governor may direct.

(3) Any person who imports any such goods shall be liable on summary conviction to a penalty not exceeding fifty pounds.

17.—The Customs Tariff Ordinance, 1907, is hereby repealed.

18.—This Ordinance shall come into force on the first day of April, 1912.

(ii.) In the case of goods not consigned direct from the country of origin or manufacture a certificate in the form set out in Schedule II, to these regulations.<sup>2</sup>

2. (i.) Certificates of origin for goods consigned direct from the country of origin or manufacture need only be verified by the signature of the exporter or his duly authorised representative.

(ii.) Certificates of origin for goods not consigned direct in order to be valid must be attested to in British countries before a collector or other principal officer of Customs, notary public or other official authorised to administer oaths, and in other countries before a British Consul, and such attested certificates must bear the autograph signature of the authority issuing the same, together with the seal of office, if any.

(iii.) No certificate of origin shall be valid after the expiration of six months from the date of its issue.

3. Inasmuch as it is possible that goods as aforesaid may occasionally reach this colony before the arrival of the certificates of origin relating to the same, it may be competent for the Customs Authority to authorise the delivery of such goods at the preferential rates of duty on the security of a deposit equal in amount to the difference in duty between the preferential and general rates. Deposits made under the provisions of this paragraph shall be carried to account under the appropriate head of revenue at the end of fifteen days after the expiration of the time allowed by the Customs Authority for the production of the certificate of origin, when the time shall be less than six months or more than six months from the date of the importation of the goods.

4. When goods as aforesaid accompanied by certificates of origin are not in conformity with the descriptions borne on the certificates, by reason of discrepancies as regards the marks or numbers of the packages, or the kind, quantity or quality of the goods, they shall not be entitled to preferential treatment. A note shall be made on the Customs bill of entry to the origin of the goods, and that the differences are solely due to error.

5. Certificates of origin produced shall be retained by the Customs Authorities at the port of landing, and shall be filed with the papers of the importing vessel. A note shall be made on the Customs bill of entry, either at the time of passing or subsequently, that a certificate has been produced covering the preferential goods specified in such entry.

<sup>2</sup> Certificates of origin are generally similar to those issued for other West Indian colonies, which see under British Guiana, p. 117.

6. Goods as aforesaid certified for entry as goods entitled to preference shall not be entitled to such preference unless they be packed separately from other goods. The packages, however, may be enclosed with other goods, provided the certificate of origin is endorsed accordingly.

7. Goods as aforesaid shall not be entitled to preference if they are set out in Customs bills of entry in which other goods are also set out.

MONEY, WEIGHTS AND MEASURES.—Same as Great Britain.

### AN ORDINANCE TO FIX A TARIFF OF DUTY ON GOODS IMPORTED INTO THIS COLONY.

(No. 6 of 1913.—Assented to 29th May, 1913.)

Be it enacted by the Governor with the advice and consent of the Legislative Council of Saint Vincent as follows:—

1.—This Ordinance may be cited as "The Customs Duties Ordinance, 1913."

2.—(1) There shall be raised, levied, collected, and paid for the public use of this Colony upon all live stock, goods, wares, and merchandise imported into this Colony, or which may be in bond when this Ordinance comes into operation, the several duties set forth in the First Schedule to this Ordinance, subject to the following conditions, viz.:—

(a) The rates of Customs duties set forth in column 1 (British Preferential Tariff) of the First Schedule shall apply to goods the growth, produce, or manufacture of the United Kingdom, Canada, Newfoundland or of any other British Possession or Protectorate that may be from time to time declared to be entitled to the advantages of the Customs Preferential Duties Ordinance, 1913, as provided for by section 3 sub-section 4 of the said Ordinance: Provided that such goods shall be accompanied by such evidence of origin as may be prescribed by the Governor in Council from time to time, and, in the case of manufactured goods, upon proof being submitted that a substantial portion of the value of the manufactured article has been produced by labour in the United Kingdom, Canada, or Newfoundland or in any British Possession or Protectorate as aforesaid.

(b) The rates of Customs duties set forth in column 2 (General Tariff) of the First Schedule shall apply to all goods not entitled to admission under column 1 (Preferential Tariff) of such schedule.

(2) The Governor in Council may from time to time make, alter and revoke rules, regulations and forms for carrying out the purposes of this section.

3.—On and after any date to be named by the Governor in Council and published in a Proclamation in the Government Gazette the rates of duties set forth in column 1 (Preferential Tariff) of the First Schedule shall apply to goods brought without transshipment into this Colony by ship direct from the United Kingdom, Canada or Newfoundland, or from any other Colony entitled to the advantages of this Agreement, or by way of any British country.

4.—The goods, wares and merchandise enumerated in the Second Schedule to this Ordinance which shall be imported into this Colony, or taken out of bond for consumption in this Colony, shall be exempted from the payment of duty.

5.—The importation into this Colony of the articles mentioned in the Third Schedule to this Ordinance is prohibited.

6.—(1) The cost of goods, for the purpose of ascertaining the amount of the *ad valorem* duty payable thereon, shall be calculated, if the goods have been purchased by the importer or consignee therefor, on the price charged for the said goods by the vendor thereof as verified by the genuine invoice of such goods, and, if procured otherwise than by *bona fide* purchase, calculated on the actual market value or wholesale price of such goods at the time of exportation to this Colony in the principal markets of the country whence such goods were imported: Provided always that the Collector of Customs or the proper officer of Customs is satisfied in the case of goods alleged to be purchased of the fact of purchase, that the entries in such invoice are true, and that the invoice is genuine in every particular, and also in the case of such goods or of goods obtained otherwise than by purchase that the price charged for the said goods appears to be a fair market value for such invoice as at the place and at the time that the same were purchased by the importer or consignee thereof.

(2) No discounts or deductions from the value of any goods chargeable with *ad valorem* duty shall be allowed unless such discount or deduction be clearly shown to the satisfaction of the Collector of Customs or other proper officer on the original invoice, or unless the same be verified by the signature of the manufacturer, merchant or person from whom the goods set forth or described in the invoice were purchased, and by whom such discount or deduction has been or purports to have been actually allowed.

7.—When any invoice for goods purchased in a foreign country expresses the value of such goods in the coinage of that country, such value shall be assessed by the Customs authorities in the Colony at the constant exchange value (based on the relative values of the precious metals of such foreign coinage for sterling money, and the importer shall pay duty, when duty is payable at an *ad valorem* rate, on the amount calculated at such value.

8.—(1) Goods not prohibited to be imported into or used in the Colony, composed of any article liable to duty as a part or ingredient thereof, shall be chargeable with the full duty payable on such article, or, if composed of more than one article liable to duty, with the full duty payable on the article chargeable with the highest rate of duty: Provided that this section shall not apply in the case of any article being a compound of or containing opium in accordance with the last current British Pharmacopoeia, and specially imported for medicinal purposes only.

(2) If any article is enumerated in the Tariff which can be classed under two or more names, headings or descriptions, and there is a

difference of duty, the highest duty provided shall be charged and collected thereon: Provided that the higher duty shall not be collected in cases where the Collector of Customs is satisfied that the article only contains a very small proportion of the article bearing the higher duty.

9.—Every person who sells to His Majesty's Government for the service of any of His Majesty's regular troops stationed in this Colony, or any of His Majesty's ships arriving at this Colony, shall be entitled to receive back the amount of duty paid on material or supplies or goods so sold or furnished for the service of such troops or ship: Provided that due proof is made of the payment of such duty, and that the nature and quantities of the materials or supplies so sold or furnished are duly certified by a responsible officer of such troops or ship, as the case may be.

10.—The Treasurer is hereby authorised, upon satisfactory proof being furnished to him, to return any money which shall have been overpaid as duties of Customs or shall have been allowed as abatement of duty on account of damage on goods imported.

11.—The Collector of Customs may give permission to any person to bring into the Colony any goods without payment of duty thereon upon being satisfied that such goods are so brought in for temporary use only. Such permission shall be subject to the following conditions:—

(1) That such goods shall be taken out of the Colony within three months of the date of such permission:

(2) That the person to whom such permission is given shall deposit in the hands of the Collector of Customs the amount of the duty on such goods.

If such goods are not taken out of the Colony within three months of the date of the said permission, the deposit in the hands of the Collector of Customs shall be forfeited. If such goods are taken out of the Colony as aforesaid, such deposit shall be refunded.

12.—All moneys leviable or payable under and by virtue of this Ordinance shall, unless their collection is otherwise specially provided for, be paid to the Treasurer.

13.—All sums of money payable under this Ordinance shall be deemed and are hereby declared to be sterling money of Great Britain, and all duties under this Ordinance shall be paid and received according to the imperial weights and measures as established, and in all cases where the same shall be deemed to apply in the same proportion to any greater or less quantity or value.

14.—The Governor may, by Order in Council, alter from time to time, and whether conditionally or otherwise, the duties mentioned in the First Schedule hereto, either by way of increasing, decreasing or annulling the same, or any of them, and may also alter or annul any of the Schedules hereto, by adding any goods or thing thereto, or by transferring any goods or thing now or hereafter contained therein from the one Schedule to any other:

Provided as follows:—

(a) that before any such Order in Council comes into effect it shall be approved by the Legislative Council; and

(b) that any alteration as aforesaid shall be subject to disallowance by the Secretary of State for the Colonies.

15.—Any proceedings heretofore taken and any penalty, forfeiture or liability heretofore incurred under the provisions of any Ordinance relating to duties of Customs which has ceased to be in operation may be continued, recovered or enforced as if such Ordinance continued in operation; and all bonds taken and all things done under the authority, or in pursuance of any Ordinance relating to duties of Customs which has ceased to be in operation shall be as valid and effectual and may be enforced in the same manner as if such Ordinance continued in force.

16.—Where any obligation has been entered into for the payment of the duties of Customs, such obligation shall be deemed to be an obligation to pay all duties of Customs which may become legally payable, or which are made payable or recoverable under any Ordinance relating to duties of Customs for the time being in force and to pay the same as the same become payable.

17.—This Ordinance shall commence and come into operation on a day to be named by the Governor by Proclamation and as from that date the Customs Duties Ordinance, 1895, No. 2 of 1895, shall be repealed.

NOTE.—Under an Order in Council dated March 27, 1917, the First Schedule to the "Customs Ordinance, 1913" has been repealed, and a new Schedule of Import Duties substituted, which came into force on April 1, 1917, and is as follows:—

The Royalty on Sakaran Order, 1918, provides that on and after May 1, 1918, royalty shall be collected on sakaran in whatever form exported at the rate of..... 10 <sup>9</sup>/<sub>10</sub> "

NOTE.—Goods exported from the Sudan to a destination in Egypt, or transported by sea from one place to another in the Sudan are exempt from export duty (subject to special regulations laid down in this Ordinance).

If goods of foreign origin not similar to goods of Sudan origin, and capable of being easily identified, are re-exported, they shall be exempt from export duty provided that they are identified to the satisfaction of the Chief Customs Officer by the production of the detailed receipt for the import duties (*keshf*), proving the identity of the goods, and the date of the payment of the import duty thereon, or by such other means as the Chief Customs Officer may consider sufficient, but this exemption shall not extend to goods upon which drawback is allowed.

The following goods are exempt from the payment of import or export duties:—

(a) the personal apparel, articles of toilet and similar effects of travellers leaving the country, including new articles of apparel and the like brought in their personal luggage and intended for their personal use, if they are duly declared; but not including bicycles, phonographs, gramophones, sewing machines and other such articles, nor consumable stores, cigars, cigarettes, or tobacco of any kind; provided, nevertheless, that every traveller shall be allowed to bring into the country free of duty 200 grammes of tobacco or 100 cigarettes or 25 cigars, if some of the packet or box in which the same is contained has been used;

(b) samples, provided they are not such as can be sold as merchandise;

(c) samples of the products of the soil of the Sudan, or Egypt, provided the value of the whole consignment does not exceed £50;

(d) gold or silver money (except coins of any metal which is no longer current in any country and have a value greater than their nominal face value by reason of their rarity or antiquity);

(e) gold or silver bullion;

(f) provisions and stores consigned from abroad for shipment on board of some particular ship in a Sudan harbour and intended for use or consumption on board the same ship elsewhere than in the Sudan;

(g) printed books, pamphlets, magazines, newspapers, and other printed documents;

Wrecked goods are also exempt from the payment of import and export duties under certain conditions, as also (subject to special regulations) are foreign goods which are transhipped in the Sudan, or which

pass in transit through the Sudan to a destination outside Egypt and the Sudan. Exemption from import duties is also accorded in respect of certain personal effects of persons who come to the Sudan for the first time for the purpose of establishing a residence there.

Subject to certain regulations, goods imported into the Sudan from Egypt are exempt from import duty.

If goods, of which the country of origin is Egypt or the Sudan, after being exported to a foreign country are brought back into the Sudan, they shall be subject to import duty like goods of foreign origin, unless it is proved by the production of a certificate from the official authority of the port to which they were originally consigned that they have not been taken out of bond there. If any goods be exported abroad without any drawback or refund of the duties already paid (if any) being obtained, and be there repaired or altered, and notice of such exportation be given at the time thereof to the Director of Customs, then upon re-importation such goods shall be liable to import duty only on the cost of the repairs or alterations together with freight and all charges inwards and outwards.

**Valuation of Goods for Tariff purposes.**—The Ordinance empowers the Director of Customs to cause the value of the principal articles of commerce imported at the various Customs stations to be from time to time determined, and such valuations from time to time to be revised, and for that purpose it shall be lawful for him from time to time to summon a conference of such of the principal merchants engaged in the trade of the said articles as he may think fit in order that he may consult with them for the purpose of settling or revising a tariff of the value of the said principal articles. When settled, such tariff shall be officially published and shall come into force and be binding on the Director and all other persons, provided always that no such tariff shall remain in force for more than twelve months from the date of its official publication.

**Declarations on import and export.**—The Ordinance contains provisions respecting the form of declaration which must be presented on the import into and export from any Customs station of any goods, whether liable to duty or not, and gives particulars as to the contents of such declarations and the various documents (invoices, assurance policies, bills of lading &c.) which must be presented with the declaration. The value of the goods, to be stated in the Customs declaration, is the price of the goods at the place of purchase, with the addition of the cost of transport to the Customs station, and of charges for insurance, and all other charges and expenses. Goods included in a Valuation Tariff shall be described in the declaration by the name given them in such Tariff. The Customs Department shall not be bound to accept the value of goods as shown by the invoices &c., and in case of uncertainty as to the true value, the goods may be valued by the Customs valuation. If the merchant refuses to pay out the Customs valuation, the Department is empowered to take the duties in kind; if such a course is not impracticable, Consignees are allowed to examine the contents of packages consigned to them before presenting their declarations in respect of such packages.

**Drawback.**—When any foreign goods are brought easily identified, which have been imported into the Sudan and upon which Customs duties have been paid to the Sudan Customs on Import, are re-exported abroad, the difference between the amount of the import duties already paid on the goods and the amount of the export duties which would be payable if the goods were of native origin shall be repaid, provided that the re-exportation be effected within six months from the date of importation as shown by the records of the Customs Department.

MONEY, WEIGHTS AND MEASURES Same as Great Britain.  
ORDINANCE No. 10, ASSENTED TO APRIL 12, 1913; AS AMEND  
ORDINANCE No. 31 OF 1917.

Be it enacted by the Governor of Trinidad and Tobago with the advice and consent of the Legislative Council thereof as follows:—

1. This Ordinance may be cited as the Customs Duties Ordinance, 1913.
2. There shall be raised, levied, collected and paid, for the public use of this Colony, the several duties set forth in the First Schedule to this Ordinance, upon all goods, wares, and merchandise, enumerated in the said Schedule, which shall be imported into this Colony, or taken out of bond for consumption in this Colony.

3. There shall be raised, levied, collected and paid, for the public use of this Colony, upon all goods, wares, and merchandise not enumerated in the First Schedule to this Ordinance, and not hereinafter exempted from the payment of duty, which shall be imported into this Colony, or taken out of bond for consumption in this Colony, an *ad valorem* duty of 10 % of the actual cost of such goods, wares, and merchandise.

4. The goods, wares, and merchandise, enumerated in the Second Schedule to this Ordinance which shall be imported into this Colony, or taken out of bond for consumption in this Colony, shall be exempted from the payment of duty.

and the payment of duty. The value of such goods, for the purpose of ascertaining the amount of duty to be paid thereon, shall be calculated on the basis of the *ad valorem* duty payable thereon shall be calculated on the basis of the value of the goods have been purchased by the importer or consignor thereof, on the price charged for the said goods by the vendor thereof as verified by the genuine invoice of such goods, and, if procured otherwise than by *bona fide* purchase, calculated on the actual market value or wholesale price of such goods at the place and at the time of exportation to this Colony in the principal market of the Country. Where the goods have been purchased by the importer or consignor always that the Collector of Customs or the proper Officer of Customs is satisfied in the case of goods alleged to be purchased of the fact of purchase, that the entries in such invoice are true, and that the invoice is genuine in every particular, and also in the case of such goods or of goods purchased at a price higher than by purchase that the price charged for the said goods as represented in the invoice appears to be a fair market value for such goods, at the place, and at the time that the same were purchased by the importer or consignor thereof.

(2). No discounts or deductions from the value of any goods chargeable with *ad valorem* duty shall be allowed unless such discount or deduction be clearly shown to the satisfaction of the Collector or other proper Officer on the original invoice or unless the same be verified by the signature of the manufacturer, merchant, or person from whom the goods set forth or described in the invoice were purchased, and by whom such discount or deduction has been or purports to have been actually allowed.

6. When any invoice for goods purchased in a foreign country expresses the value of such goods in the coinage of that country, such value shall be assessed by the Customs authorities in the Colony at the constant exchange value (based on the relative values of the precious metals) of such foreign coinage for sterling money, and the importer shall pay duty, when duty is payable at an *ad valorem* rate, on the amount calculated at such value.

7. If any article, subject to the payment of specific duty is imported in any bag, box, tin, jar, bottle, or any other package intended for retail sale and marked or labelled or commonly sold as containing or commonly reputed to contain a specific quantity of such article, such bag, box, tin, jar, bottle, or any other package as aforesaid, shall be deemed, as against the importer, to contain such specific quantity. In all cases where such package is not so marked or labelled or commonly sold or reputed, the weight of such article shall be calculated on the gross weight of such package and its contents.

8. Goods not prohibited to be imported into the Colony composed of any article liable to duty as a part or ingredient thereof, shall be chargeable with the full duty payable on such article, or, if composed of more than one article liable to duty, then with the full duty payable on the article charged with the highest rate of duty.

9. (1.) No liquor containing more than 42 % of proof spirit as verified by Sykes' Hydrometer, or as certified by the Government Analyst, shall be deemed wine, and no liquor containing more than 20 % of proof spirit as verified by Sykes' Hydrometer or as certified by the Government Analyst, shall be deemed malt liquor. All liquor, with the exception of medicinal spirits admitted as such by the Collector of Customs, containing less than 20 % of proof spirit, verified or certified as aforesaid and all liquor other than that containing more than 21 % of proof spirit verified as aforesaid shall be deemed spirits.

(2.) In any case where by reason of the presence of colouring, sweetening, or other matter, the true strength of any liquor cannot be immediately ascertained by Sykes' Hydrometer, a sample of such liquor may be distilled or treated by such other process as the Collector of Customs may direct, so that the true strength of the liquor may be ascertained by Sykes' Hydrometer.

(3.) In this Ordinance the term "Beer" includes ale, porter, spruce beer and black beer, and any other description of beer, and shall be construed to extend to any liquor which is imported as a description of beer, or as a substitute for beer, and which on analysis of a sample thereof at any time shall be found to contain more than 2% of proof spirit, or to have an original gravity exceeding 1012°.

10. In this Ordinance and in the Customs Duties Ordinance 1909 the term "proof spirit" means such spirit as at a temperature of 51° Fahrenheit shall weigh 12/13ths of the weight of an equal bulk of distilled water at the same temperature, and the proof strength shall be that indicated by Sykes' Hydrometer.

[illegible]

13. Every sum of money which shall be due for drawback shall be paid by the Receiver-General on the proper debenture certified by the Collector of Customs, and the Receiver-General is hereby authorized to return at once the money which shall have been overpaid as duties of Customs or shall have been allowed as abatement of duty on account of damage on goods imported on the proper document for such overpayment or abatement being certified by the Collector of Customs.

14. The importation is prohibited of extracts, essences or other concentrations of tobacco or any admixture of the same, tobacco stalk stripped from the leaf, whether manufactured or not, and tobacco-stalks flour, unless such articles are mixed with ingredients which render them in the opinion of the Collector of Customs unfit for use except for industrial or horticultural purposes.

15. The Collector of Customs may give permission to any person to bring into the Colony any goods without payment of duty thereon upon being satisfied that such goods are so brought in for temporary use only. Such permission shall be subject to the following conditions:

(1.) That such goods shall be taken out of the Colony within twelve months of the date of such permission ;

(2.) That the person to whom such permission is given shall deposit the hands of the Collector of Customs the amount of the duty such goods, and shall not sell or dispose of the same within three months

If such goods are not taken out of the Colony within three months after the date of the said permission, the deposit in the hands of the Collector of Customs shall be forfeited. If such goods are taken out of the Colony before the expiration of the said three months, the said deposit shall be refunded.

1760, all sums of money payable under this Ordinance shall be deemed and are hereby declared to be sterling money of Great Britain, and all duties under this Ordinance shall be paid and received according to imperial weights and measures by law established; and in all cases where such duties are imposed according to any specific quantity or value, the same shall be deemed to apply in the same proportion to any greater or less quantity or value.

17. The Legislative Council may from time to time by resolution increase, reduce, abolish or otherwise alter the Customs duty leviable on any goods imported into the Colony, or may impose Customs duty upon any goods not imported whereon Customs duty, at the time when such resolution is passed, is not leviable.

18. The Customs Duties Ordinance (No. 18) is hereby repealed.

18. Any proceedings heretofore taken and any penalty, forfeiture or liability heretofore incurred under the provisions of any Ordinance relating to duties of Customs which has ceased to be in operation may be continued, recovered, or enforced as if such Ordinance continued in operation; and bonds taken and all things done under the authority or in pursuance of Ordinance relating to duties of Customs which has ceased to be in operation shall be as valid and effectual and may be enforced in the same manner as if such Ordinance were still in operation.

20. Where any obligation has been entered into for the payment of duties of Customs, such obligation shall be deemed to be an obligation to pay all duties of Customs which may become legally payable or which may become payable or recoverable under any Ordinance relating to duties of Customs for the time being in force and to pay the same as the same become payable.

## BRITISH PREFERENTIAL TREATMENT.

REGULATIONS GOVERNING THE ENTRY OF GOODS UNDER  
BRITISH PREFERENTIAL TARIFF.

The rates of Customs Duties set forth in Column 1 (preferential tax) of the first schedule, shall apply to goods, the growth, produce or manufacture of any part of the British Empire: provided that goods shall be accountable for such evidence of origin as may be prescribed by the Government in Executive Council from time to time, and in the case of manufactured goods upon proof being submitted that a substantial portion of the value of the manufactured article has been produced in any part of the British Empire.

The Regulations further provide that all articles entitled to preferential treatment must be accompanied by a certificate of origin\* in prescribed form, valid for a period of 12 months from the date of issue.

1. In the case of goods consigned direct from the country of origin or manufacture a certificate of origin in the form set out in Schedule I to these Regulations.

2. In the case of goods not consigned direct from the country of origin or manufacture a certificate in the form set out in Schedule 1 to these Regulations.

Certificates of origin for goods consigned direct from the country of origin or manufacture need only be verified by the signature of the exporter or his duly authorised representative.

Certificates of origin for goods not consigned direct in order to be valid must be attested to in British countries before a collector or other principal officer of Customs, Notary Public, or other official authorised to administer oaths, and in other countries before a British Consul, and such attested certificates must bear the autograph signature of the authority issuing the same, together with the seal of office, if any.

No certificate of origin shall be valid after the expiration of six months from the date of its issue.

Where articles entitled to preference reach the Colony before the arrival of the certificates of origin relating to the same, the Collector of Customs may authorise the delivery of such articles at the preferential rates of duty on the security of a deposit equal in amount to the difference in duty between the preferential and general rates. Deposits made under the provisions of this section shall be carried to account under the appropriate head of revenue at the end of a week after the expiration of the time allowed for the production of the certificate of origin.

When goods accompanied by certificates of origin are not in uniformity with the descriptions borne on the certificates, by reason of discrepancies as regards the marks or numbers of the packages, or the kind, quantity, or value of the goods, they shall not be entitled to preferential treatment, unless the Customs authorities at the port of destination are satisfied as to the correctness of the marks and that the differences are due solely to error.

Certificates of origin produced shall be retained by the Customs authorities at the port of landing and shall be filed with the papers of the importing vessel. A note shall be made on the import entry either at the time of passing or subsequently that a certificate has been produced covering the preferential goods specified in such entry.

Goods certified for entry under the preferential tariff shall be packed separately from other goods. The packages, however, may be enclosed with other goods, provided the certificate of origin is endorsed accordingly.

Goods entitled to preferential treatment shall not be entered on entries along with non-preferred goods.

## "Sale of Firearms and Gunpowder Ordinance, 1912."

This Ordinance empowers the Superintendent of Police or any Travelling Commissioner to issue a permit, in prescribed form, to purchase or otherwise obtain firearms or gunpowder to any person applying for the same.

No person may purchase or otherwise obtain firearms, ammunition or gunpowder in Gambia without having previously obtained the requisite permit, nor may any person sell or transfer such firearms &c. to any person, other than a licensee or permit holder.

An Ordinance to make provision for giving effect to a Convention signed March 5, 1902, in relation to Sugar.

(No. 5.—Passed and assented to on May 11, 1909.)

Whereas, His Majesty the King and divers foreign powers have entered into a Convention signed March 5, 1902, in relation to sugar; and it is expedient to give effect to that Convention in this Colony and in the Protectorate.

Be it enacted by the Governor of the Colony of the Gambia, with the advice and consent of the Legislative Council thereof, as follows, viz.:

1. All sugar imported or brought into the Colony or Protectorate from any place outside the same shall be accompanied by such evidence of origin as hereinafter required; and all such sugar imported or brought into the Colony or Protectorate not accompanied by such evidence shall be deemed to be so imported or brought in contrary to a restriction contained in Section 41 of the Customs Ordinance, 1882, and, subject as hereinafter provided, shall be dealt with accordingly, as if the same were goods enumerated and described in the table to the said Section.

2. All sugar shall be accompanied by a Certificate of Origin indicating (a) the kind and quantity of the sugar; (b) the kind, number, and marks of the packages; (c) the country of production, of origin, or of manufacture, and the country of destination of the goods, and (d) the mode of carriage by land or water.

3. The Certificate must be signed, and issued, by the fiscal authority having jurisdiction in the country of production, of despatch, or of transformation, such fiscal authority being duly empowered for that purpose by the Government of the State.

4. When the country of origin of any sugar the subject of a Certificate is a State not party to the Convention of the 5th of March, 1902, the Certificate must, in addition to the particulars required above, state if the goods are derived from a factory which works sugar caneing from one of the countries mentioned in the schedule hereto or added thereto as hereinafter provided or any particular description of sugar therein specified in respect of any such country, and if so the name of such country; and any such Certificate must, as a guarantee of due signature and issue, be visé by the proper British Consul or Vice-Consul.

5. No Certificate is to be deemed valid after the expiry of twelve calendar months from the date of its issue, or such less time (if any) as may be mentioned in the Certificate by the fiscal authority issuing the same.

6. Inasmuch as it is possible that sugar may occasionally reach the Colony before the arrival of the Certificates of Origin relating to the same, and it would be inconvenient and expensive to importers if such sugar were not delivered from Customs charge until the arrival of the Certificates, it shall be competent for the Collector of Customs to authorise the delivery of such sugar, on the security of a deposit of such amount, or of a bond in such penalty as he may think fit, for the due production of the necessary Certificate within a prescribed period, provided that he sees no reason for suspecting that the sugar emanates from a country in respect of which such sugar is mentioned in the schedule hereto, and is intended to be imported into a country a party to the Convention of the 5th of March, 1902.

7. When the Governor shall be informed through one of His Majesty's principal Secretaries of State that any direct or indirect bounty is granted in any foreign country on the production or export of sugars, the Governor may, by Order-in-Council, add the name of such country, and the description of sugar in respect of which such bounty is granted, to the schedule hereto, and may when so informed that any bounty has ceased to be granted by any country delete therefrom the name of such country or description of such sugar in respect of which such bounty has ceased to be granted.

8. Nothing in this Ordinance shall apply to molasses, glucose, or sugar-sweetened products.

9. The Collector of Customs shall be the fiscal authority for the purpose of signing and issuing Certificates of Origin of sugar exported from the Colony or Protectorate.

10. The Sugar Convention Ordinance, 1904, is hereby repealed.

11. This Ordinance may be cited for all purposes as "The Sugar Convention Ordinance, 1909."

† The following will be considered as yarns prepared for retail sale: (a) Yarns made up in various small ways, i.e., on cordboard, discs, reels, bobbins, star-shaped pieces of cordboard, yarns arranged or packed in cordboard boxes or fancy paper (including the weight of these packages); yarns in small bunks or in balls. (b) Hanks of yarn, put up in more elaborate fashion than that necessary for merely weaving, with loose transverse threads running through them, which do not fasten the hanks tightly but keep them together by means of knots, in such a way that if the knots are pulled the hank falls into small independent hanks. The fact of two- or three-threads in hanks being knotted in a more elaborate manner than the skeining necessary for weaving, does not form any reason for the application of the rates of No. 188. Nevertheless Customs Houses with full customs powers are empowered to levy duty on made-up yarns if the weight of the hanks is not ascertained if they are originally imported solely for industrial purposes (e.g., for the manufacture of lace and trimmings or for covering ropes, &c.), and the importer declares himself in writing on the invoice, as ready to permit temporary official inspection of his factory for the purpose of proving the actual use of the yarn (&c.).

\* See note † to No. 192.

‡ Note to Nos. 189 to 192.—In the case of tissues which are alternately open and close woven, duty will be calculated upon the average total number of threads. The average total number of threads will be obtained by counting the threads of both warp and weft between any two regularly recurring points in the design (counting from repeat to repeat), and by reducing the number of threads so obtained to an average per square of 5 millimetres, adding together the product for warp and weft, in the case of tissues of warp and weft threads, the single thread should be counted. No account is taken of fractional parts in establishing the net result of the calculation (G).

† Under this heading are included all flat-stitched tissues (even dyed, printed or woven in colours, without regard to the condition or quality of the yarns used for their manufacture), worked with figures resembling embroidery on which the weft threads of the pattern lie flush with the rest of the texture, at least altogether on one side and partly on the other. They are distinguished from similar articles by the fact that the figure-threads always bind the same threads of the foundation-tissue when the figure is turned over and appear to be woven with it, which is not the case with embroideries. Flat-stitched tissues of which the foundation-tissue is made of yarn of No. 100 or less, may be assessed for duty according to the weight of the foundation-tissue, or if the threads of the pattern have been removed from the cutting required for the ascertainment of the weight of the main tissue (&c.).

Note 1.—Strips serving for tying up packages, not more than 5 mm. wide, made of cotton threads stuck together, even of different coloured threads, are included under ribbons for advertisement purposes. They may have the name of the firm, address, &c., printed on them (G). Note 2.—Mercerized tissues or tissues made wholly or partly of mercerized yarn, as also velvet and ribbons of the same kind, are subject to a duty of 18 kronen per 100 kilos. (75.74 d. per cwt.), in addition to the duties to which they are already respectively liable (G) (&c.). The duty of 18 kronen is additional also applied to the duty of 18 kronen relating the conventional and surtax, the conventional rates applying to the different tissues are to be taken into consideration.

Note 3.—Tulle and netted materials resembling tulle figured with lace-like designs are dutiable as lace. Note 2.—Tulle worked with lace-like designs, similar to the samples deposited on the occasion of the signing of the Treaty, is dutiable, not as lace, but as figured tulle under No. 196 (b) (G).

## AUSTRIAN-HUNGARIAN TERRITORIES.

† The conventional duty is applicable to these cloths even when they are cut in squares and show more than 40 threads to the square of 2 cm. on the edges or borders. Narrow strips not more than 5 mm. wide made of coloured yarn, woven in with the edges, have no effect on the classification (S).

\* Combed wool weighing more than 8 grammes per metre is dutiable under this number. Wool combed in the shape of coarse threads, half finished, is dutiable under No. 25 (A).

† Note to Nos. 225 and 226.—(1) Yarn composed of two strands of different colour (yarn with one strand clouded) which has received a certain degree of fulling by the self-actor is considered as single, and is dutiable under No. 225 (e) 1 and No. 226 (c) 1. (2) Fancy yarn included under No. 225 (b), (d) and (e) 2, and under No. 226 (b) and (c) 2 (25 kronen) (B).

Under this heading are included yarn of two or more strands, unbleached, bleached, dyed, printed or mixed, the spinning of which is interrupted by knots, loops, spiral, &c. (B) (G).

Yarns strongly twisted, which form such knots or loops by twisting each other and which come straight again when pulled, are not included under this heading, but are dutiable according to their kind (A) (G).

Yarn faintly coloured in order to render it distinct for the purpose of weaving (yarn faintly coloured) is dutiable as yarn not coloured. Yarn is distinguished from dyed yarn by its faint colour, which disappears on its being washed in tepid water (15° C.) (B).

## General Note to Chapters XXII. to XXVI.

1. Yarns with dressed or sized warp are subject to a surtax of 5 per cent. on the rate leviable on the yarn used (S).
2. Bands of glass, china or metal, glass enamel, tinzel, glass threads, whalebone threads, &c., woven in or knitted in textile wares, do not affect the tariff classification of these goods (S).
3. Textile wares of all kind, in combination with metallic threads (wire, round or flattened), are subject to a surtax of 30% on the rate leviable on the wares in question.  
Textile wares of all kinds in combination with metallic threads (wire, round or flattened) are subject to a surtax of the rate leviable on the wares in question of 10 per cent. in the case of silk wares included under Nos. 247, 248, 250, 251 and 253; and of 30 per cent. in the case of all other textile wares (G) (S).
4. In the case of the assessment for duty of embroidered materials, the material itself is to be considered and the embroidery is not to be considered, unless the tariff contains special regulations on the subject. Embroidered velvet and tissues similar to velvet, and embroidered ribbons (the latter so far as they are not specially mentioned in the tariff) are to be taxed as embroidery (S).  
Embroidered knitted wares, passementerie and button makers' wares (except those belonging to No. 247 (embroidered silk wares) and No. 255 (embroidered part-silk wares)) are not to pay duty as embroidery, but according to their nature. Cotton, linen and woolen knitted wares embroidered with silk, ornamented therewith by sewing, are to be treated as half-silk knitted wares under No. 258; similarly cotton, linen and woolen passementerie and button makers' wares embroidered with silk, or ornamented therewith by sewing, are to be treated as half-silk passementerie and button makers' wares under No. 260 (G) (S).
5. In the case of stockings, socks, gloves and knitted wares, not specially mentioned, the making up is not to be taken into consideration, so far as it does not concern knitted articles of fashion (ornamental articles of luxury), which are to be treated as articles of fashion under the more highly taxed heading. Tissues which are merely provided with simple hems or seams, so far as not occurring in articles of fashion, are not to pay duty according to the rate for sewn articles, but are merely to be subject to a surtax of 10 per cent. on the duty leviable on the tissue itself.  
Knitted wares and hosiery are dutiable, knitted, crocheted, netted (net or knotted work) wares, e.g., such stuffs in the piece, ribbons, hoods, gaiters, gloves, caps, trousers, collars, corsets, pelmères, mittens, knee warmers, waistcoats, baby shirts, aprons, socks, stockings, sachels, purses, knitted wearing apparel, kerchiefs, vests, and similar articles; as also regularly shaped goods (*fournitures*) and wares cut out from knitted article and sewn (G) (S).
6. In the case of knitted wares, the presence of seams or hems, the bordering with narrow ribbon in order to prevent any itching, and ordinary indispensable accessories (whenever the material of which they are composed) such as sewn button holes, button loops, hooks, buckles, thongs, garters, plaid strings (bonnet, &c., strings), laces, and the like, are not to be taken into account (F) (G).
7. Stitches by means of which double lace or open work embroidery—accessories of piece goods are joined together are likewise to be disregarded. On the other hand, made-up articles (e.g., collars, wrist-bands, and similar articles), consisting of pieces of lace or open-work embroidery joined together by needlework, are dutiable as articles of fashion (*passementerie*) (S).

to be taken into account. Such articles and accessories neither enter into the classification of the article under No. 274, nor, as regards regularly shaped knitted wares, do they involve their classification as sewn knitted wares (G) (S).

Sewn articles cut out of knitted stuff, with the exception of ornamented fancy articles, are dutiable in accordance with the general tariff rates under Nos. 230, 233, 252, or 258 (G) (S).

Knitted articles, such as fashion, but not regularly shaped, and also sewn (ornamented) fancy articles, as, for example, those trimmed with bows, quilting, lace, embroidery, &c., are not dutiable under the above-mentioned numbers, but as articles of fashion, according to the more highly taxed trimmings (No. 274); and, for the purpose of calculating the surtax, the conventional duty applicable to such trimmings, if the conventional duty is established therefor, is taken as basis. If the trimming is not subject to a higher duty than that applicable to the knitted tissue of which the article is made, it is not taken into account (G) (S).

In the case of gloves of cotton, linen, or woolen knitted stuffs, reef-lined gussets (so-called *lambour seams*) of silk or of cloth, which, under the provisions of the general tariff, would entail the classification of the gloves as wares of half-silk (No. 258), are disregarded so far as regards gloves entitled to the benefits of the conventional tariff (G) (S).

Regularly shaped caps are also dutiable as knitted wares (G) (S).  
Silk and half-silk tissues, merely provided with simple hems or seams so far as not occurring in articles of fashion, are not to pay duty according to the rate for sewn articles, but are merely to be subject to a surtax of 5 per cent. on the duty leviable on the tissue itself (S).

Pocket handkerchiefs, bed and table linen, and handkerchieving, made of cotton yarn, or of textile materials included in Class XXIII., with hemstitching, or with hemstitching over the edge of the tissue, are formed by simple sewing of the same, or by the single or multiple folding over of the edge of the tissue (the folds being of greater or smaller breadth), and then by securing the portions folded over by sewing, whereby the tissues are neither made to present pinking (open work hems) of any kind whatever, nor ornamented by fancy needlework or otherwise, are, on that account, neither dutiable as sewn goods nor subject to any surtax (G) (S).

On the above-mentioned articles, in place of the duty applicable to sewn articles, the surtax of 10 per cent. provided for in Note 5 (above) is levied, if they are provided either only with simple open-work hem, (half or whole "ladder" hem), or only with a single row of perforations running parallel with the edge of the tissue in the interior of the tissue, and formed in exactly the same way as the simple open-work hem, but not connected with the hem by special stitches (G) (S).

In calculating the surtax referred to in paragraphs 1, 3 and 5 the conventional rates are not to be taken as basis (G).

Strips of stuff (except those of specially tariffed textiles, e.g., of batiste, tulle &c.), cut, or cut (stamped) out, after the manner of ribbons, plain-bordered, scalloped, undulated, perforated, or consisting of various strips joined together by means of adhesive substances, so as to form figures or ornaments; or crossed with ribbons, chenille, braids, and the like, are to pay duty as ribbons, in cases where the breadth of the same is less than 20 centimetres (G).

Except when otherwise provided in the Tariff, textile wares measured into lengths or cut out, without needlework, are to be treated as goods imported in the piece to be sold by the metre (G).

Articles of textile wares, such as material other than silk or half-silk, in which the foundation material is united with unspin or tulle by the embroidering upon it of patterns in such a manner that the patterns become visible on the cutting away of the underlying or superimposed material, are dutiable not as sewn articles under No. 274, but as embroidery (G) (S).

Textile manufactures on which are embroidered only letters, even interlaced or severely ornamented (monograms, ornamental letters &c.), or names, numbers, or the like, are not considered as embroideries, but dutiable according to kind (G) (S).

6. Sacks of coarse materials are to be treated as the tissues of which they are made (F) (S).

7. Used and marked sacks of coarse materials which are imported to be filled with corn and re-exported within two months, by permission and under control (Free) (S).

8. Used and marked sacks of coarse materials used to export corn of all kinds, malt, and other dried seeds, kails, coal or paper pulp, and then returned empty, on production of certificate, by permission and under control (Free) (G) (S).

|   | General Note to Class XXXV.—All glass which shows in the mass an uniform colour, or a non-uniform colour produced by special treatment in the manufacture of the glass, is to be treated as coloured glass, approximating to flint glass and iridescent glass. On the other hand, this glass is included under the head of painted glass, when designs or pictures are added upon the surface after completion by means of colours (even glass-colours). Such glass is also included under the heading of painted glass when it has been given an iridescent painting.
